

Ové Pictures

is a duo of slovak authors of animated films, namely, the eternal children of crayons, Veronika Obertová and Michaela Čopíková, founded in 2010 in Bratislava, Slovakia.

We established Ové Pictures to create what we love the most.

We create works of art that bring joy to us and others.

We love traditional animation techniques, drawing, handmade production, the original approach, bold visual solutions and mature cheese. Under our brand we create animation, music videos, projections, illustrations and motion design.

Our works has been featured in many renowned foreign festivals and in the magazines IDN and The Reel, and we have received awards at home and abroad.
